

# Abdelrahman Moustafa

647-303-5776 | amoustafa@torontomu.ca | [abdelrahmanw08.github.io/pw](https://github.com/abdelrahmanw08) | [linkedin.com/in/abdelrahman-wm](https://linkedin.com/in/abdelrahman-wm)

## TECHNICAL SKILLS

**Languages:** Java, Python, SQL (Postgres), JavaScript, HTML/CSS

**Frameworks:** React, Node.js, JQuery

**Developer Tools:** Git, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, Jupyter, Linux, Anaconda

**Libraries:** Tensorflow, Keras, Scikit-Learn, NumPy, pandas, Matplotlib, Swing

## EDUCATION

**Toronto Metropolitan University**

September 2023 – April 2028 (Expected)

*Bachelor of Science in Computer Science w/Hons*

*Mississauga, ON*

- 90%+ Entrance Scholarship, Faculty of Science Dean's List
- Relevant Courses: Data Structures, Algorithm Design, Operating Systems, Object Oriented Programming

## CERTIFICATIONS

**Tensorflow Developer Certificate**

January 2024 – January 2027

*Google*

- Demonstrated expertise in using TensorFlow to design, build, and train deep learning models.

**PCAP - Certified Associate in Python Programming**

July 2023

*OpenEDG Python Institute*

## PROJECTS

**Netflix Clone** | *HTML, CSS, JavaScript, MongoDB, Express, React, Node.js*

Summer 2024

- Built a full-stack Netflix clone using the **MERN stack**, replicating core streaming features and responsive UI with **Tailwind CSS**.
- Implemented **user authentication**, **protected routes**, and **dynamic content** rendering to simulate personalized user experiences.
- Integrated a **movie database API** to fetch **real-time** content and built reusable **React components** for modals, carousels, and video previews.

**TensorFlow Projects** | *Python, TensorFlow*

June 2023 – January 2024

- Created a sentence classification model using **LSTMs** and **transfer learning** for medical abstracts which resulted in 84% accuracy.
- Designed an **image classification** model to classify 101 different food categories using **CNNs**.
- Utilized the **Numpy**, **Pandas**, **Matplotlib** and **Scikit-Learn** to process, visualize, and manipulate data.

**Othello** | *Java, Swing*

December 2023 – January 2024

- Managed the backend and the front end of an Othello game using **Java** and **Swing** to build the UI.
- Applied an **algorithm** to calculate the best move for the bot and restrict illegal moves for the player.
- Designed a **saving and loading** mechanic including a leaderboard with all players and their scores.

**Hackville 2024 - Sheridan College** | *HTML, CSS, JavaScript, Python, TensorFlow*

January 2024

- Collaborated with a team to build an application that uses **machine learning** to help newcomers find synonyms.
- Developed back-end which **imports**, **preprocesses** and **analyzes** datasets using data analysis libraries.

## VOLUNTEER EXPERIENCE

**Event Coordinator**

September 2019 – April 2020

*ISNA Canada*

*Mississauga, ON*

- Organized events and managed food distribution, attracting 200+ attendees per event.
- Collaborated with team members to fulfill orders in a fast-paced setting, ensuring participant satisfaction.
- Engaged with 100+ customers, providing excellent service at a charity event to raise funds against poverty in GTA.

**Project Assistant**

March 2022 – May 2022

*Masjid Al-Farooq*

*Mississauga, ON*

- Assisted in event organization, prayer services, and charitable initiatives during Ramadan.
- Led a team of 10+ volunteers in fundraising, raising \$500 for mosque construction projects.
